

This ladder is primarily used for insertion or extraction of personnel from a helicopter during water-op missions, confined area operations or unanticipated emergencies.

## FEATURES & BENEFITS

- Portable and adaptable to most helicopters
- Attaches with locking steel carabiners
- Compact when stored (case included)
- Easily deployed when needed
- Repositionable ladder rung spacers allow space between the ladder rung and aircraft to ensure a secure hand grip
- Stainless steel D-rings on each end of the ladder for attachment to the aircraft and for equipment attachment options.
- Rated working load limit: 1,500 lbs

## DIMENSIONS

- 25 feet long with 13.5 inch wide rungs
- 30 feet long with 19.5 inch wide rungs
- Custom sizes available
