

Helicopter Hoist Static Discharge Cable

The Static Discharge Cable is designed to discharge static electricity on the hoist hook prior to contacting the surface.

- Prevents electrostatic shock
- Cable is 10 ft. long
- Compatible with all rescue hoist hooks-attaches with stainless steel screw lock spring clip
- 5/16" diameter steel cable with orange plastic coating with reflective stripe
- Break away safety feature at 200 lbs.
- U.S. Patent #6,942,177 B1
