

Cable Splice

Cable Splice with
"Slide-Lok" Hook

In the event a helicopter hoist cable is sheered, our cable splice quickly and easily allows the hoist operator to reattach a hook to the hoist cable. This allows the mission to continue safely.

FEATURES & BENEFITS

- Universal application for all helicopter rescue hoists
- Compatible with all helicopter hooks that will accept a 5/16" shackle.
- Working load limit: 2,500 lbs.
- Quick and easy to use - no tools required
- Corrosion resistant materials
- Top plate designed to secure cable and activate hoist cable stopswitch
- U.S. Patent #6,968,600 B2
